Core Curriculum (weekly)												

Notes: Fellows are allowed four weeks of vacation, usually taken in increments of one or two weeks paired on specific rotations (YEAR 1-GERO and HBPC, YEAR 2-HOS and PED), to total not less than 28 days per year. Vacation time needs to be requested in advance and approved by the Fellowship Program Director. If vacation affects continuity clinic dates, it is required that the request is made at least seven weeks in advance so clinics can be closed, and if necessary, patients moved. It is preferred that vacation time be taken out of a flexible/back-up rotation, but can be taken out of clinical rotations if approved by the Fellowship Program Director.

*Outpatient includes Longitudinal Long Term Care experience estimated at 5% of time each month
