GENERAL MEETING INFORMATION

The Reed M. Nesbit Urologic Society, founded in 1972, holds an annual meeting for urologists who trained or were affiliated with the University of Michigan Department of Urology. Dr. Mani Menon from Mount Sinai Health System in New York, will serve as this year's Visiting Professor.

Thursday, September 17, 2026

Nesbit Grand Rounds

5:15 PM ET - 7 PM ET

Barton Hills Country Club

730 Country Club Road

Ann Arbor, MI 48105

Friday, September 18, 2026

Visiting Professor Meeting

7:30 AM ET - 4 PM ET

Barton Hills Country Club

730 Country Club Road

Ann Arbor, MI 48105

Nesbit Dinner

6 PM ET - 9 PM ET

Barton Hills Country Club

730 Country Club Road

Ann Arbor, MI 48105

Saturday, September 19, 2026

Nesbit Tailgate

1:00 PM ET - 3:00 PM ET

309 Berkley Ave

Ann Arbor, MI 48103

HISTORY OF THE REED M. NESBIT UROLOGIC SOCIETY

The Reed M. Nesbit Urologic Society is the alumni organization of the Department of Urology, University of Michigan. The membership of the Society includes residents who trained at Michigan, clinical fellows, faculty and selected others. The alumni Society is named in honor of Reed M. Nesbit, who was Section Head from 1928 to 1968.

At the time Dr. Nesbit came to Michigan there were no effective antibiotics, fluid and electrolyte balance was poorly understood, and blood transfusions were emerging from the realm of experimental medicine. Considered one of the giants in American urology, he oversaw tremendous advances that were important to the development of endoscopic surgery in urology. Dr. Nesbit trained one resident a year for each of the three years of the urology's early residency program, and he ultimately trained eighty urologists during his tenure, eighteen of whom eventually became heads of urology departments.

The Society was constituted as a non-profit organization in 1972 and the first by-laws were drafted by the late John W. Konnak, MD (Residency 1969). Prior to this time, there had been informal gatherings of alumni dating back to 1963 as part of the overall Michigan Medical Center Alumni Association.

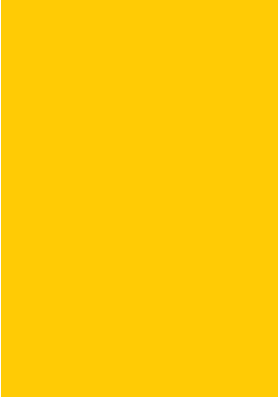

*Reed M. Nesbit, MD
Inaugural Chief, Section of Urology
Department of Surgery*

At these early meetings the tradition of gathering together to discuss scientific, professional and academic concerns in conjunction with good fellowship and an opportunity to see old friends was firmly established.

At the charter meeting, the by-laws were ratified and the Society's distinct logo was adopted. The logo is a reminder of the long tradition of urology in medicine and its early adoption of science of technology. It has a central image portraying a medieval era urologist performing uroscopy by contemplating the appearance of a jordan (or matula) of urine.

CME INFORMATION

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the University of Michigan Medical School. The University of Michigan Medical School is accredited by the ACCME to provide continuing medical education for physicians.

The University of Michigan Medical School designates this live activity for a maximum of 5.25 AMA PRA Category 1 Credit(s)[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Target audience: Physicians, physician assistants, nurse practitioners, nurses, other healthcare professionals, house officers, and medical students of urology.

After attending this activity, participants will be able to:

1. Explain and apply the latest guidelines and recommendations for the diagnosis, treatment, and management of urological conditions to optimize patient care.
2. Demonstrate improved teamwork and communication skills within the healthcare team to facilitate more effective collaboration.
3. Integrate rapid technological advancements into clinical practice to improve diagnostic and treatment outcomes.
4. Interpret and incorporate new research findings into clinical practice to ensure evidence-based patient care.

HOW TO CLAIM CME

How to claim credits:

Via website

1. Go to <https://umich.cloud-cme.com/>
2. Log into your account. Note: You must have a CloudCME account to claim credit for any University of Michigan CME activity.
3. Click on the Claim Credit card on your Dashboard.
4. Enter the Activity ID number in the appropriate field.
5. Under Action, click on Claim.
6. Under Action, click on Add Credit.
7. Enter the number of credits you're claiming and the "I Attest" button.
8. Complete the evaluation form to provide feedback on the activity.
9. Click the Submit button.
10. Scroll down to the Awarded Credits section to view or print your certificate and/or comprehensive University of Michigan CME transcript.

Via CloudCME App

2. Open the CloudCME App.
3. Login to your MiCME powered by CloudCME account.
4. Select Claim Credit or Scan Attendance on the menu.
5. If you select Claim Credit, enter the Activity ID and click the Submit Activity ID button.
6. If you select Scan Attendance, scan QR code.
7. Complete any additional questions or fields.
8. Finish the credit claiming process by completing the evaluation form.

Note: Recording attendance is available 30 minutes prior to the activity, during the activity or 1 week after the activity. Credit can only be claimed up to one week after the date of the activity.

NESBIT VISITING PROFESSOR

Dr. Mani Menon is an internationally recognized pioneer of robotic surgery in urology, best known for performing the first robotic radical prostatectomy in the United States and refining it—through four randomized trials—into what is now the global standard of care for localized prostate cancer.

Trained at JIPMER in Pondicherry, India, he completed his urology residency under Dr. Patrick Walsh at the Brady Urological Institute, Johns Hopkins. He became Chairman of Urology at Henry Ford Hospital in 1997, where he founded the world's first cancer-focused robotics program and the Vattikuti Urology Institute. There he developed landmark techniques including the "veil" nerve-sparing prostatectomy, robotic kidney transplantation with regional hypothermia, and the precision (Menon) prostatectomy. He later held senior roles at Mount Sinai Hospital in New York.

Now retired from clinical practice, he runs the Menon Academic Partnership, facilitating academic exchange across the US and internationally.

He has published over 1,000 papers, chapters, and abstracts, trained more than 80 robotic surgeons, and helped establish 35+ robotic programs worldwide. His honors include the AUA Gold Cystoscope and Hugh Hampton Young Awards, the Keyes Medal, India's Dr. B.C. Roy National Award, and induction into the Johns Hopkins Society of Scholars.

MANI MENON, MD

Clinical Professor and Director of Strategy and
Innovation
Mount Sinai Hospital
